

Project Design Phase-II Data Flow Diagram & User Stories

Date	4 July 2026
Team ID	
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Data Analyst	Data Import	USN-1	As a Data Analyst, I want to import the electricity consumption dataset into Tableau so that I can analyze the data.	Dataset is successfully imported without errors.	High	Sprint-1
Data Analyst	Data Preparation	USN-2	As a Data Analyst, I want to validate and prepare the dataset before visualization.	Dataset is clean, formatted, and ready for analysis.	High	Sprint-1
Data Analyst	Data Visualization	USN-3	As a Data Analyst, I want to create interactive visualizations to analyze electricity consumption trends.	Charts and dashboards display accurate information.	High	Sprint-2
Energy Analyst	State-wise Analysis	USN-4	As an Energy Analyst, I want to compare electricity consumption across different states to identify consumption patterns.	State-wise comparison is available.	High	Sprint-2
Energy Analyst	Region Wise analysis	USN-5	As an Energy Analyst, I want to analyze electricity consumption across different regions.	Region-wise dashboard displays correct results	High	Sprint-2
Energy Analyst	Lockdown Analysis	USN-6	As an Energy Analyst, I want to compare electricity usage before, during, and after the COVID-19 lockdown.	Lockdown vs. Recovery comparison is available.	Medium	Sprint-2

Decision Maker	Interactive Dashboard	USN-7	I want to use filters to explore electricity consumption by year, state, and region.	Interactive filters function correctly.	High	Sprint-3
Decision Maker	Insights & Reporting	USN-8	I want to view summarized insights	Dashboard provides meaningful insights and summaries.	Medium	Sprint-3
Decision Maker	Trend Analysis	USN-9	As a Decision Maker, I want to analyze monthly, quarterly, and yearly electricity consumption trends so that I can identify seasonal patterns and make informed decisions.	Monthly, quarterly, and yearly trend visualizations are displayed accurately.	Medium	Sprint-3
Decision Maker	Consumption Comparison	USN-10	As a Decision Maker, I want to compare electricity consumption before and after the COVID-19 lockdown so that I can evaluate its impact on electricity usage.	Before vs. After Lockdown comparison is displayed correctly with interactive visualizations	High	Sprint-3
